

## Dressing

## Recipe Suggestion

Palsgaard® 5301

**Product:** Clear dressing without oil. Warm process.

### Recipe:

	%
Palsgaard® 5301	0.60
Water	72.40
Sugar	10.00
Salt	2.00
Vinegar 12%	15.00
	100.00

### Procedure:

- \* Pour the water into the emulsification plant and start the recirculation.
- \* Mix Palsgaard® 5301 with salt, sugar and add into the water phase.
- \* Heat treatment up to approx. 88°C.
- \* Cooling to approx. 15°C.
- \* Add the vinegar 12% into the water phase.

In order to keep the temperature low, stop recirculation as soon as the vinegar has been properly emulsified into the dressing.

The consistency of the finished product can be altered by small adjustments up or down of the dosage of Palsgaard® 5301.

### Benefits:

Palsgaard® 5301 provides an excellent smooth texture, good stability, and very clear appearance.
